A hunter pace is a competition in which the trail is marked for horse and rider to follow.

The trail is rated at the speed that the First, Second and Hill Topper fields would travel if they were fox hunting. The winning pace time is the ideal time to safely finish the predetermined trail.

Competitors go out individually or in teams of two and three to ride the trail.

Each group of riders is timed. Riders are penalized for either riding too fast or too slow off the pace time. The group to come closest to the pace time wins the competition, whether over or under the pace time.

Don't have a team? That's ok come early to register and we will assign you to a team or you can enter as an individual.
